

SenseiAQ v2.0

Cloud-Enablement Software for real-time Air Quality Monitoring

Product Specification

Product Summary

SenseiAQ software for Piera Systems collects live-data from USB-connected Piera sensors for real-time logging and analysis of Particulate Matter (PM) as well as alerting on Air Quality Index (AQI) fluctuations over time. SenseiAQ also Cloud-Enables a locally connected sensor providing an IoT Gateway functionality on a Client PC, Mac or Android device ensuring the same data can be stored, viewed and analyzed remotely through the Piera Air Quality Management Service (AQMS)

SenseiAQ Software displays at-a-glance data on a dashboard including Air-Quality-Index (AQI) Scores, color-coded based on EPA Limits and alerts for vape/smoke and particle count thresholds and distributions. The software is provided with all Piera sensors while the Cloud-reporting functionality (AQMS) is included for all customers under a yearly subscription / maintenance agreement with Piera Systems.

Features

- Displays Real-Time Particulate Mass concentrations PM0.1 – PM10
- Auto Calculates and displays latest AQI scores every 60 seconds.
- Dashboard displays PM1.0, PM2.5 and PM10.0 values in ug/m3 and corresponding AQI for each
- Color-Coded AQI Values correspond to EPA Guidelines for PM concentrations
- Fast data acquisition and sampling (1 sec.)
- Supports Windows, MacOS Platforms
- IoT-Enables USB-connected Piera sensors
- Supports Export to CSV for local data Figure

Applications

- Enterprise monitoring of indoor air quality, AQI . Ideal for Clean Rooms, Hospitals, Office-Spaces, College Campuses, Hotel/Shared living and Industrial Environments
- Smoke/vape detection with real-time alerts and notifications
- Building Management Systems, Smart-City Infrastructures

1. SenseiAQ Software Specifications

Software Specifications	Rating
OS Support	Windows (7-11 Pro / Home Edition,) MacOS (High Sierra and newer)
Distribution Package	Electron Installer / Cross-Platform React Package, signed by Piera Systems
Languages	English, Spanish, French, Italian, German
USB Interfaces support	Type A - USB 2.0 Max Length 10m / 32'
Install Package Size	98Mb
Piera Hardware Supported	Piera-7100™ Series Piera-5100™ Series Piera-3100™ Series Canaree A-Series Canaree I-Series Canaree R-Series
Cloud Reporting Support	Native support for Microsoft Azure IoT Hub* Software acts as IoT Gateway Device
API Support	Direct Serial API (CSV format) Azure IoT via REST API in JSON format

*A 90 day subscription to Air Quality Monitoring Service (AQMS) is included with purchase of each device. Extended subscriptions to AQMS available with maintenance contract.

Piera Systems Inc. reserves the right to make corrections, modifications, enhancements, improvements and other changes to its products and services at any time and to discontinue any product or service without notice. Please contact Piera Systems anytime to obtain the latest relevant information.

We are ready to help you determine which of our solutions will best meet your needs.

2. Ordering Information

Please visit www.pierasystems.com or email to info@pierasystems.com.

SenseiAQ Software included with all Piera Systems sensors at no additional cost including 90 days of Air Quality Monitoring Service (AQMS) . Extended services available with purchase of maintenance contract
