

Canāree Air Quality Monitors

ACCURATE. AFFORDABLE. ADAPTABLE.

A family of air quality monitors so accurate
that you can identify the sources of your pollution

Canāree family of Air Quality Monitors are the fastest way to get a comprehensive picture of your air

There's never been a greater need for accurately measuring air quality. Most of our time is spent indoors and air quality inside can be 5 times worse than outside directly impacting our health and productivity.

- Easy to use and deploy
- Fully integrated with cloud
- Highly accurate yet affordable

Canāree A1	Canāree I1	Canāree I5
<p>Plug-n-Play Air Quality Monitor</p> <p>Measure particulates from PCs, mobile devices, and wireless access points</p> <p>USB powered</p> <p>Weight 42g</p>	<p>Standalone Air Quality Monitor</p> <p>Monitor particulates anywhere using WiFi, bluetooth, or ethernet & all features of A1</p> <p>USB or external power</p> <p>Weight 42g</p>	<p>Comprehensive Environmental Monitor</p> <p>All features of I1 & temperature, pressure, humidity, & TVOCs</p> <p>USB or external power</p> <p>Weight 50g</p>
<p>Measure across entire PM range – PM0.1 to PM10</p> <p>Built-in Vape/Smoke Detection</p> <p>Fully integrated with the cloud. Intuitive UI included</p> <p>Seamless integrations to BMS / BAS solutions</p> <p>Dimensions: 8.98cm x 6.13cm x 2.06cm</p> <p>Covers 100m², 1,000ft²</p>		

EASY TO USE. EASY TO DEPLOY

Plug it in and start accurately measuring your air in seconds – that’s the Canāree way. With a complete solution right out of the box including an intuitive UI, there’s no experience needed to measure air quality. Seamless integrations to wireless access points means deploying in volume is as simple as a one-time config of a few lines of code and simply plugging in additional devices.

FULLY INTEGRATED WITH THE CLOUD

All Canāree come equipped with a full integration into a powerful cloud-based SenseiAQ software so you can monitor air quality from anywhere. Monitor data in your cloud or ours. Integrating into custom dashboards is made easy with RESTful APIs and so is integrating with BMS / BAS solutions.

HIGHLY ACCURATE YET AFFORDABLE

Industry’s only low-cost air quality monitors that can measure across the entire range of particulate matter from PM0.1 to PM10. Highly accurate data across 7 distinct bins allows you to uniquely classify the sources of pollution to inform effective mitigation actions in a highly cost-effective way.

DEPLOY Canāree EVERYWHERE
